SHIVAM KUMAR

B.Tech CSE (Cybersecurity) Student

Greater Noida, Uttar Pradesh
+91 9520416636
mrshivamseh@gmail.com
LinkedIn | GitHub

Cybersecurity-focused student building practical skills in Python, Linux, networking, and secure application development. Interested in learning through hands-on projects and applying security fundamentals to real-world problems.

PROJECTS

CyberGuard — Android Cybersecurity Application

Kotlin · Jetpack Compose · Firebase · Android Studio

- Developed a cybersecurity-focused Android app for security awareness and personal security tools.
- Implemented Firebase email/password authentication, email verification, and password-reset functionality.
- Added password-strength checking, device-security guidance, and security-awareness tips.

Personal Portfolio Website

HTML · CSS · Git · GitHub

- Created a portfolio website to present technical skills, projects, and certifications.
- Organized project and profile information in a clean, user-friendly web interface.
- Managed project files and version control using Git and GitHub.

TECHNICAL SKILLS

Cybersecurity	Security fundamentals, security awareness
Networking	Networking fundamentals
Operating Systems	Linux & Bash
Programming / Web	Python basics, HTML, CSS
Tools & Platforms	Git, GitHub, Android Studio, Firebase
